From: Fawzia Gurmani <fgurmani@greerscoffee.com.au>  
Subject: Following up On your recent call  
Date: 17 September  
Attachment: Proposal

Dear Mr. Dimmick,

Thank you for your recent call. We are always pleased to hear from one of our many local store managers. I think your idea to reinstate the Greer's Coffee Club is excellent, and I am also pleased to know your customers have been asking about the club punch cards. I agree that this is a good time to bring back the program, as we are working on rebranding the company. I have drawn up your proposal and will forward it to Ms. So-Ra Oh. vice president of marketing, tomorrow. Before I do that, can you please look it over and let me know if I have missed any details? Please send me your feedback by the end of the day.

Thank you,

Fawzia Gurmani  
Regional Director

## 2.3. Câu hỏi Where?

To: All Sevastya employees

Subject: Update

Date: December 13

Dear Sevastya employees.

I am writing to give you an update on this year's sales so far. [1]— am happy to report that currently our sales volume is up 20% from last year. This is due in part to the fact that we have been very successful in expanding our international reach.

[2] —. In Brazil, sales increased 57%, which can be attributed to the Rio de Janeiro Fashion Show where our evening wear was featured. A similar trend emerged in Russia, where sales were up by 32%. -[3]- There we anticipate sustained growth for the rest of the year, especially in our winter apparel line. We also saw sales growth in the United Arab Emirates (UAE), but growth was a modest 10% due to fierce competition. That said, in this market, sign-ups for our credit card were strong. Finally, in Korea, where we have had our most successful international market launch thus far, favorable news articles about our products drove very strong sales.

-[4]—. Thus, overall, it's been an excellent year so far. I am confident that our new program, which offers discounts to customers who invite others to shop with us, will begin to boost sales growth at all locations.

Sincerely,

Takeshi Ishiguro

Vice President of Sales

## 2.5. Câu hỏi Why?

One reason that corrugated fiberboard has become such a popular material for shipping fresh vegetables and fruits is the ease of labeling the containers. Information such as the brand, size, and grade of the produce can be printed directly on the box after it has been formed. Although this method, known as "postprinting" is the most economical way of labeling fiberboard containers, it is limited to only one or two colors. Full-color graphics can be obtained by printing the information on the box before it has been formed. This method, known as "preprinting" costs about 15 percent more, but many supermarket managers prefer it because customers are attracted to the colorful displays, which leads to increased sales.

### Fulton Stainless Steel Products

Fulton Stainless Steel Products is a large-scale manufacturer making stainless steel industrial kitchen appliances in factories in Germany and France. The company's products are trusted by chefs and bakers around the world to be durable, long-lasting, and of superb quality. The company produces kitchen stoves, ovens, microwaves, refrigerators, food processors, electric kettles, coffee makers, and other products.

After acquiring the Visor Home Products Company in a deal last month, the company expected its overall profits to increase 20% compared to the last fiscal year. As a result, to meet increased demand, the company will employ more than 300 full-time workers in our six factories and offer good pay with an excellent benefits package. The company considers all of its employees valuable members of the Fulton family. Additionally, the company continues to research and develop new products to satisfy its customers and compete with other companies.

### Fulton Stainless Steel Products

Fulton Stainless Steel Products is a large-scale manufacturer making stainless steel industrial kitchen appliances in factories in Germany and France. The company's products are trusted by chefs and bakers around the world to be durable, long-lasting, and of superb quality. The company produces kitchen stoves, ovens, microwaves, refrigerators, food processors, electric kettles, coffee makers, and other products.

**After acquiring the Visor Home Products Company in a deal last month = obtained a company, the company expected its overall profits to increase 20% compared to the last fiscal year.** As a result, to meet increased demand, the company will employ more than 300 full-time workers in our six factories and offer good pay with an excellent benefits package. The company considers all of its employees valuable members of the Fulton family. Additionally, the company continues to research and develop new products to satisfy its customers and compete with other companies.

Subject: Inspection Results

Date: January 25

Dear employees,

The results from our recent inspection on January 22 indicate that there are a few problems that we need to address.

First, it was brought to my attention that fire exit signs need to be installed again. The most serious violation concerned the improper storage and labeling of food. All ingredients stored for later use must be labeled with an exact date and detailed contents. If we do not label containers properly, spoiled food could accidentally be served to customers. We received relatively low grades for employee hygiene and the cleanliness of our facilities. All employees are required to wear their uniform and hairnet at all times and wash their hands after every bathroom visit. We also need to mop floors more often and keep them dry.

In order to correct these poor situations, I will be posting a checklist that all employees will be required to complete every morning. It will include necessary preparations to ensure that we are not breaking any regulations. This measure will go into effect on January 29.

If you have any questions about these changes, please bring them up at the staff meeting tomorrow.
